

Fused Polarization-Maintaining Fiber Products

- 1. Fused Polarization-Maintaining Hybrid Fiber Tap**
- 2. Fused Polarization-Maintaining Fiber Splitter/Mixer**
- 3. Fused Polarization-Maintaining Fiber Combiner**
- 4. Fused Polarization-Maintaining Fiber WDM**

Fused Polarization-Maintaining Fiber Products

1. Fused Polarization-Maintaining Hybrid Fiber Tap

(1) 1x2 or 2x2 Configuration

Fused Polarization-Maintaining Fiber Products

1. Fused Polarization-Maintaining Hybrid Fiber Tap

(2) 1x3 or 3x3 Configuration

Fused Polarization-Maintaining Fiber Products

2. Fused Polarization-Maintaining Fiber Splitter / Mixer

(1) 1x2 or 2x2 Configuration

Fused Polarization-Maintaining Fiber Products

2. Fused Polarization-Maintaining Fiber Splitter / Mixer

(2) 1x3 Configuration

Fused Polarization-Maintaining Fiber Products

2. Fused Polarization-Maintaining Fiber Splitter / Mixer

(3) 3x3 Configuration

Note: It has equal splitting Ratio at any input port launched

Fused Polarization-Maintaining Fiber Products

3. Fused Polarization-Maintaining Fiber Combiner

1x2 Configuration

Fused Polarization-Maintaining Fiber Products

4. Fused Polarization-Maintaining Fiber WDM

1x2 Configuration (980/1550nm Fused PM Fiber WDM)
